

# The Need for Advanced Education in Proton Beam Dosimetry

*A Panel Discussion*

*Moderated by Cheryl S Turner, EdD, RT(R)(T) and Matthew Palmer, MBA, CMD*

***Sponsored by Legion Healthcare Partners***

## **Panel Includes:**

*Niek Schreuder—Leo Cancer Care*

*Nicola Bizzocchi—Paul Scherrer Institut – Proton Therapy Center, Switzerland*

*Thi Nguyen—Seattle Cancer Care Alliance – Proton Therapy Center*

## **Session Outline:**

- Intro and history of proton dosimetry
- Previous education methods for proton dosimetry
- Current educational initiatives
  - Legion/AAMD partnership for educational program
- Development of program
  - Overview of important first lessons
  - Specialty topics
    - Physics
    - Site specific treatment planning
  - International initiatives
- Making the transition from photon to proton
- Summary of educational need and future growth

Please note there are no slides for this session.
