

## **Member-at-Large**

**Candidate: Akhil Tiwari, CMD**

### **1. Why do you wish to serve on the AAMD Board of Directors?**

I am passionate about advancing medical dosimetry and ensuring dosimetrists have the knowledge and resources to provide excellent patient care. Serving on the AAMD Board would allow me to advocate for our profession, promote high standards of practice, and highlight the vital role of dosimetrists in cancer care. With years of experience at Memorial Sloan Kettering Cancer Center and as an MDCB board member, I understand our field's challenges and opportunities. My involvement in research, publications, and student mentorship has reinforced my commitment to education and professional development. I believe collaboration is key to addressing issues such as certification, training, and career growth. By joining the board, I aim to contribute my experience and perspective to guide AAMD's strategic direction and support the next generation of dosimetrists.

### **2. Where do you believe the AAMD should focus efforts during the proposed 3-year term?**

If elected to the AAMD Board, I am eager to contribute to the Formal Education Committee (FEC) and Career Services Committee (CSC). My experience as an MDCB board member has provided valuable insights into dosimetry education and the importance of maintaining high standards. With the FEC, I aim to help refine educational curricula, ensuring alignment with industry standards while supporting educators and students. My passion for networking makes me a strong asset to the CSC, where I would work to provide career resources, address workforce trends, and assist dosimetrists in career advancement. Additionally, I am committed to strengthening relationships with MDCB and JRCERT to uphold educational quality. I believe collaboration is key to advancing our profession, and I am excited about the opportunity to serve, bringing experience, dedication, and a commitment to excellence.
