

Regional Director

Candidate: Sarah McKee, CMD, RT (R)(T)

1. Why do you wish to serve on the AAMD Board of Directors?

I find it important to further expand my volunteer energy to include my CMD profession. I have 20+ years of experience in the dosimetry field but have learned so much from the AAMD organization through representing Region (IV) and through attending conferences. I have met many brilliant dosimetrists from all over the country and I am always motivated to learn more! The Regional Rep position was my starting volunteer role, and I look forward to guiding the other representatives, as the Regional Representative Director. It's important for dosimetrists all over the country to have a point person linked to the AAMD. My favorite moments during my AAMD volunteer experience have been attending the Member Meetups, through Zoom. I love collaborating with other dosimetrists from all over the country, sharing ideas, and developing new relationships. I feel I am a perfect fit for this Board Position!

2. Where do you believe the AAMD should focus efforts during the proposed 3-year term?

The COVID era has ended, and meetings are back in person. We have managed to perfect the art of virtual conferences, Zoom, and other virtual events. The AAMD has so much to offer, in so many accessible ways, yet so many dosimetrists are not connected. I believe that much is to be gained by adding to the way AAMD reaches out and makes those connections. The next 3 years must be focused on gaining more members, who, in turn, have great ideas, tips and tricks to share, and can help to move the profession forward. I am eager to help make those connections happen.
